

Weekly Report

27/12/2016-03/01/2016

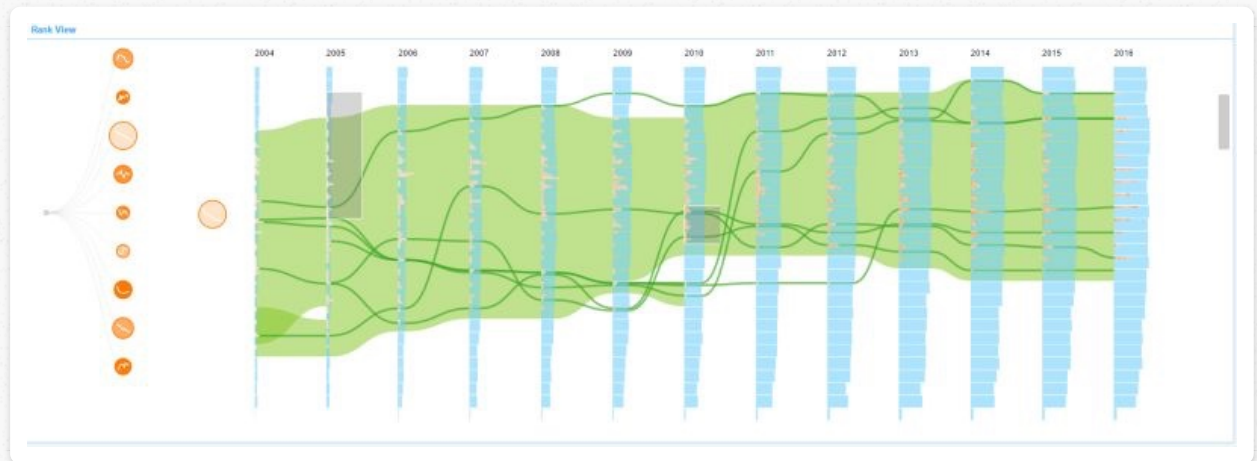

Han Dongming Jan. 03 2017

Work

1. Change and optimize the project again and again.

To do

1. Change and optimize the project again and again.

We use flows to describe the lines' trends and use a line to delegate a flow when the flow has lots of lines. We will not paint the flow while there is only a line in the flow,
